

# Georgia's Blockchain Generation

---

The ultimate guide on how to apply for the program.  
(updated on 8 June)

GEORGIA'S INNOVATION &  
TECHNOLOGY AGENCY

TBILISI  
SCHOOL OF  
COMMUNICATION

# Who Should Apply

- Individuals, who
  - have Georgian ID card;
  - have 18 or more years;
  - want to learn Blockchain technology in-depth from high-class trainers;
  - want to meet like-minded fellows;
  - are motivated to get prepared and earn one of the following certifications:

**Certified Blockchain  
Expert™**

These 2 courses are fully booked during the application campaign 10-30 May 2023

# Eligibility Criteria

- To be admitted\* to the selection process, you need to submit:
  - personal data, which is required in the application form;
  - (Optional) NFT certificate, which can be earned on the [Binance Academy website](#);
  - **preselection assessment test** (only applicants with at least 30% success rate will be further processed).

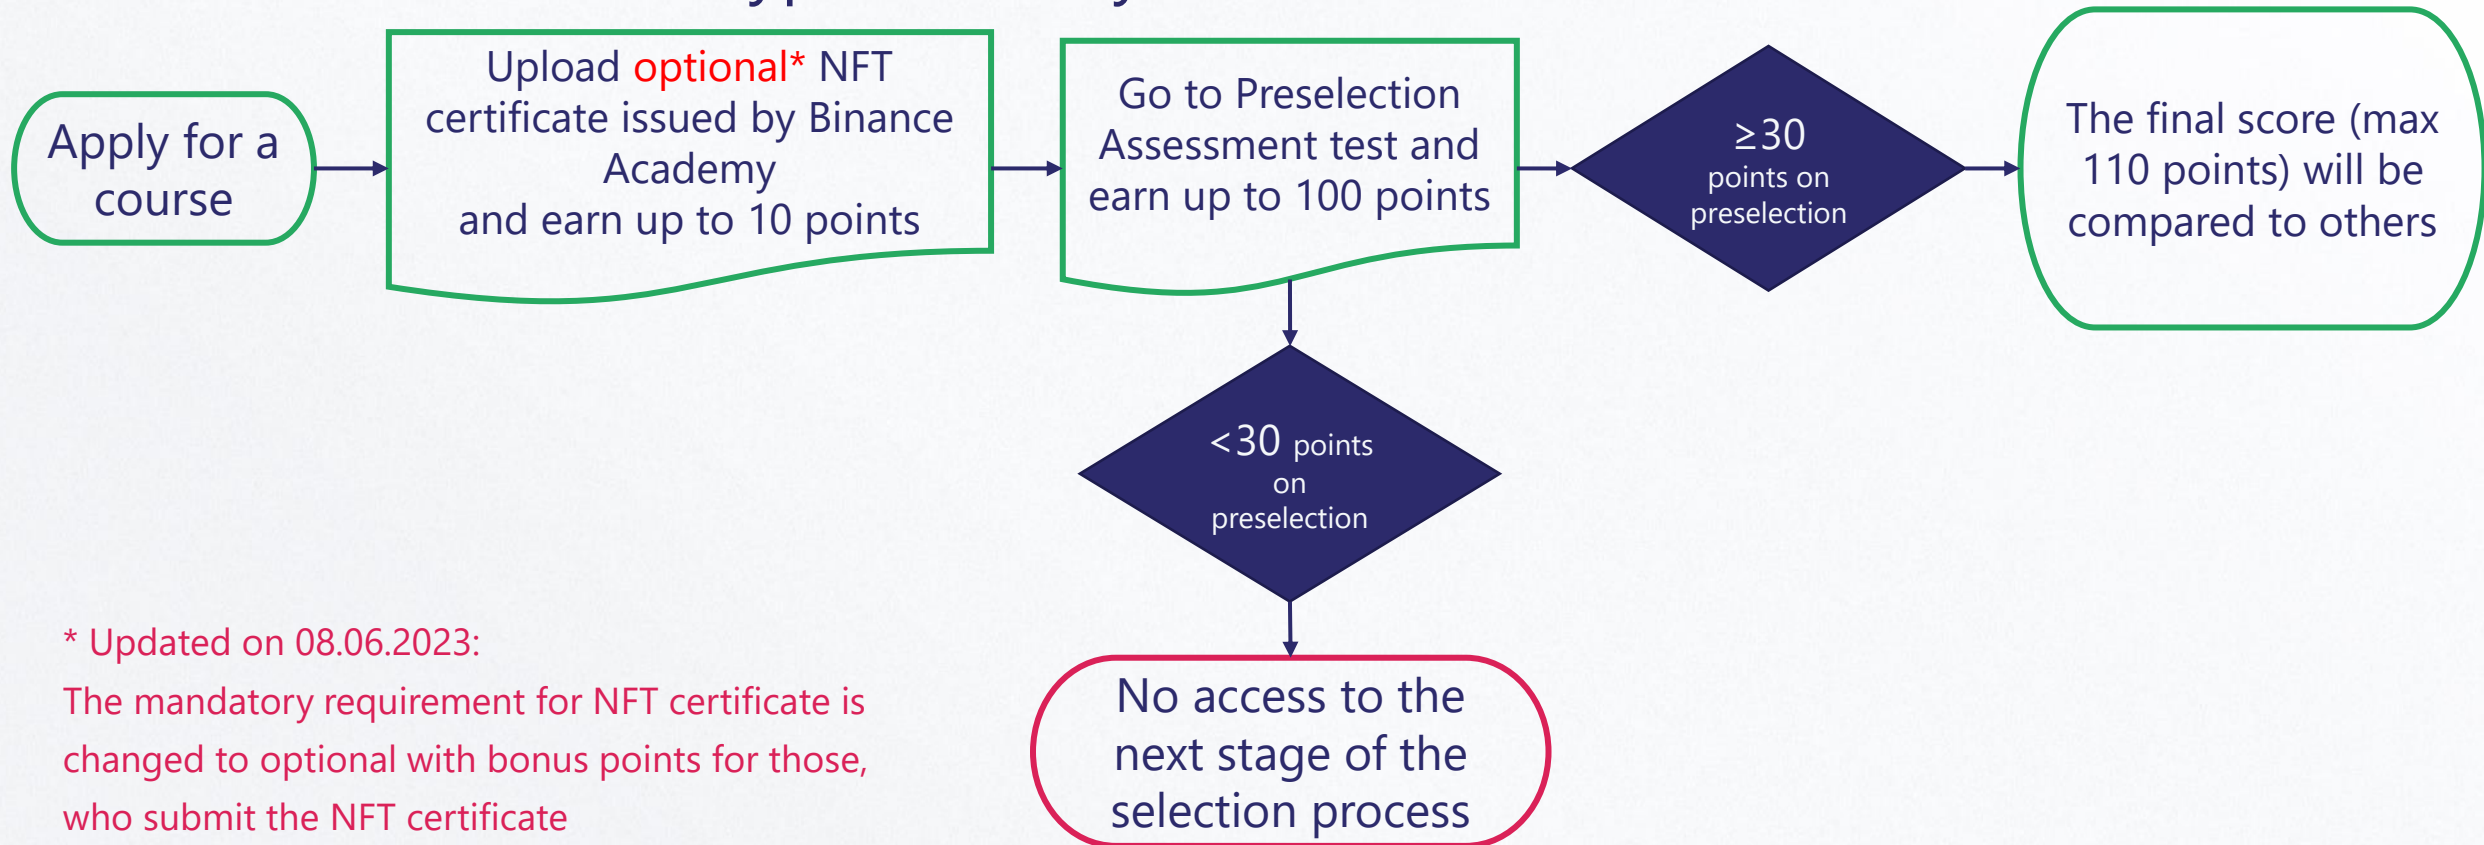

\* Note:

Students, that were enrolled in the GITA ICT3000 training program, but did not complete their course or did not sit for the exam after receiving an exam voucher, are banned from participation in any GITA programs for the period of 2 years.

# Points Distribution

- Points for courses "Blockchain and Business Fundamentals" and "Blockchain and Cryptocurrency Fundamentals"

\* Updated on 08.06.2023:

The mandatory requirement for NFT certificate is changed to optional with bonus points for those, who submit the NFT certificate

# Selection

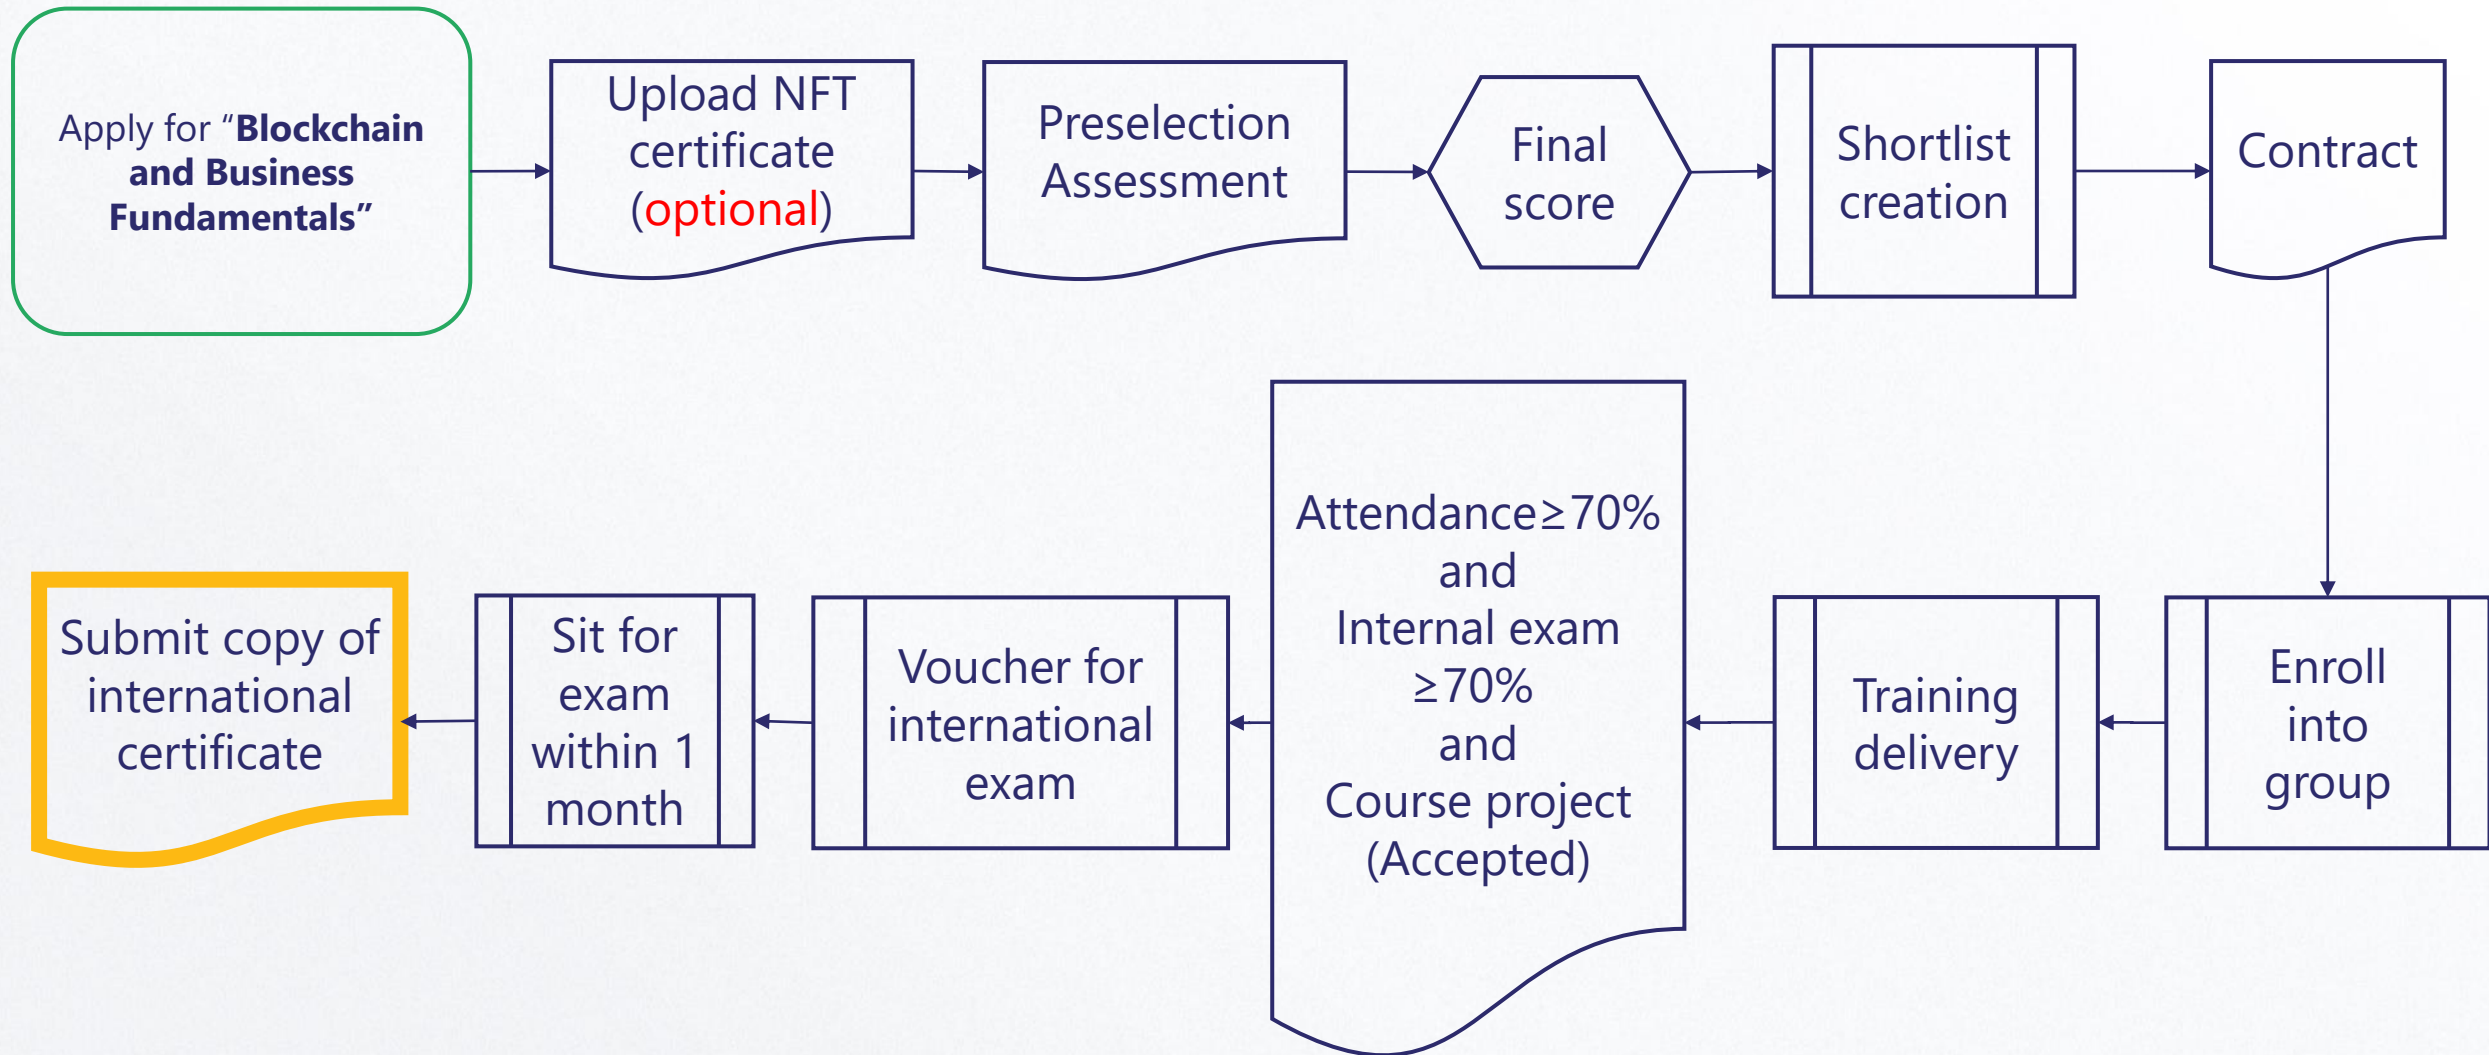

- We create a ranking list based on the received\* points.
- The **first 30\* students per group** will be shortlisted. The next will be in wait list and can be invited in case some of shortlisted decide to not join the class.

\* Applicants, that registered for “Blockchain and Business Fundamentals” during campaign in May 2023, but where not selected, will be added automatically and 10 bonus points will be added for their submitted NFT certificates. They will also automatically participate in selection for last group.

\*\* What will happen if 2 candidates have the same exam score? Then we investigate the exam duration – the applicant that writes the test in less time has an advantage. If two applicants have the same exam score and the same exam duration, then both are selected. We track exam score with 2 digits after decimal point and exam duration until seconds.

# Selection (2)

# Binance Academy NFT Certificate

- To earn (**optional**) NFT certificate you need:
  1. Become a verified Binance user.  
If you don't have a Binance account, register and get verified with this link:  
<https://accounts.binance.info/en/register?ref=BinancelCT> and you will get 5USDT bonus as a gift (first 50 users) after the end of selection campaign.
  2. Go through the free Blockchain Fundamental course and quizzes afterward, prepared by Binance Academy (estimated time: 2 h 30 min).
  3. Once the verification process is over and the quizzes are done, you can download your NFT certificate and upload it to the application form.

# Change log

## 08.06.2023 update

- We simplify the application process by removing mandatory prerequisite of Binance Academy NFT certificate. We will provide bonus points for those, who invested some time to complete the Binance Academy course.
- Some slides, related to “Blockchain Development and “Blockchain and Cryptocurrency Fundamentals” are removed to simplify this document, as seats for those courses are already filled.

The application guide for Application process, that was applied during campaign 10-30 May 2023, can be found here: [https://ict.gov.ge/binance/Application\\_process\\_v1.pdf](https://ict.gov.ge/binance/Application_process_v1.pdf)

# Submit Application

- Now you have everything needed to apply for the training.
- Go to: <https://ict.gov.ge/binance/#application>  
and fill out the application form.
- The last day to apply is **May 30, 23:59.**
