## Training schedule - Round 1500

Document Number: IR1500\_01.4  
Release: 1.7, 06.09.2022

### General info

We are searching for 1800 students to be trained between July 2022 and December 2022. They should pass their international exam by the end of January 2023 and speedup their professional development.

### Schedule of classes - dates and hours

Below are listed class dates and hours of lectures as of 06.09.2022.

As this project involves a lot of people for long duration, changes are inevitable. If need for change happen, we try to have the same daily hours if possible and starting day to be as close as possible to initial plan.

After the selection process is completed, some groups were closed due to low interest and additional groups were opened. The new groups sometimes lead to changes in schedule for better delivery or due to schedule conflicts – for example if 2 groups of the same class are opened, they are better to be scheduled to run together – either Morning/Afternoon, either Mon-Wed/Tue-Thu.

Some difficult courses are moved to beginning of the schedule to allow more time for exam preparation.

Note:

Most classes will require you to dedicate extra time for post class review and home assignments. As a rule, you must spend at least 2 to 3 times the class hours for homework and material review. For example, if course **C++ Certified Associate Programmer** has 40 class hours, you need to spend from 80 to 120 hours doing homework and reviewing the materials to prepare for the exam. The time for study may vary based on your previous experience and knowledge.

Be prepared that your career is a journey, not a destination, and learning will never stop!

Good luck!

Revision history:

Date	Summary of changes
05.06.2022	First version
06.06.2022	<p>09. Back-end Programming: PHP + Laravel            Group #: G09.2            Class hours: from 18:30-21:30 to <b>19:00 - 22:00 UTC+4</b>            G23.3 - starts 2 weeks later - 26.09            G23.5 – starts 1 week later - 21.11            G23.6 (optional) – starts 1 week earlier - 28.11</p>
28.07.2022	<p>Changes in table below:            7 groups were cancelled; 4 new groups were opened            43 groups with no change or with minor change            Total 71 groups</p>
30.07.2022	<p>Course 34. Associate Android Developer, Group #: G34.2            New class hours, usually preferred by students: 18:30 - 21:30 UTC+4, Mon-Thu. # of class sessions: 13</p>
01.08.2022	<p>Course 37. Game development, Group #: G37.2            We discover that instead of course plan of 48 hours, the schedule was created for 40 hours and need to be extended by 8 hours to be able to cover all the planned learning material.            Considering the feedback from most students, that 4 hours class per day is too long, we will reduce day hours by 30 minutes, but add 4 sessions instead of 2</p>
13.08.2022	Fixed schedule for G04.8, G04.9
17.08.2022	<p>Groups G05.3/G05.4 start 1 week later. Exam change is approved, and duration is 13 sessions/40 hours.            G06.3 - Exam change is approved, and duration is 13 sessions/40 hours. New start date.</p>
06.09.2022	<p>Extra groups are opened:            G02.6, G03.6, G04.10, G04.11, G08.6, G14.3, G15.6, G38.6            G18.5 – only to rebalance group size as per optimum group size            Group 27.2 schedule is changed from Saturday/Sunday to Saturday only. Hours from 10:00-14:00 to 10:00 – 16:00</p>
